

Deniliquin Business Chamber

Council Candidate Questionnaire

September 2017

Your Name Nick Metcalfe

Do you have a business? If yes, what type of business? If no, in what type of business are you employed?

Farming and road transport business

How long have you lived in the area? 50 Years

What is the best part about living in this area?

The local community

Why are you running for Council?

I enjoy putting back into the community I live in. Having 17 years on the successful Conargo Shire Council I feel I can continue to contribute to our area.

What do you see as the biggest issue(s) facing the local business community and what will you do to address it if elected?

Economic downturns are always an issue with small communities.

The more business owners, residents, and tourists that can be attracted to our area means the more dollars that will be circulated amongst our community, and the more job prospects that will be created.

We need to keep addressing the issue of our population growth and offering ways to keep our shopping precedence and rural business's stable, and more importantly growing.

The water issue is another topic again!!
